The Bottom

It's Alive

You're one step closer to the edge
And I, I barely feel alive
All used up, I'm dead inside
But I'm still trying, fix yourself now
I'm not the one you need to
Give up on now, I'm worried sick
Now it's a time to playIt'll all be okay when I know you're safe
But you're reaching for the bottom
And we'll all make it through
I'm just not sure about you
'Cause you're heading for the bottomI'm one step closer to the edge of you
You still don't feel alive
You're used up and full of pride
And we're still here to winIt'll all be okay when I know you're safe
But you're reaching for the bottom
And we'll all make it through
I'm just not sure about you
'Cause you're heading for the bottomI can't be the one to always pull you from the bottom
I can't be in your sick world, I can't be here anymore
I can't be the one to always pull you from the bottom
I can't be in your sick world not anymoreIt'll all be okay when I know you're safe
But you're reaching for the bottom
And we'll all make it through
I'm just not sure about you
'Cause you're heading for the bottom
It'll all be okay when I know you're safe
'Cause you're heading for the bottom
