

# Forever

## Edison Glass

When I'm with you I find myself  
I seem to lose him somewhere else  
What is this about you  
That makes me see? You never expected perfection  
All you want is my affection  
What is this about you  
That makes me believe? Forever  
We'll sing it out  
Forever  
This anthem  
I've never lived until I've known your touch Forever  
We will take this dance  
Forever  
In this romance  
I've never lived until I've known your touch We're moved by the authenticity of  
Your grace given so abundantly We're moved by the authenticity of  
Your grace given so abundantly  
What is this about you  
That makes me believe? Forever  
We'll sing it out  
Forever  
This anthem  
I've never lived until I've known your touch Forever  
We will take this dance  
Forever  
In this romance  
I've never lived until I've known your touch The comfort is never absent from the need Forever  
We'll sing it out  
Forever  
This anthem  
I've never lived until I've known your touch Forever  
We will take this dance  
Forever  
In this romance  
I've never lived until I've known your touch
