

Knights

Minus the Bear

I owe you, don't I?
A little light today but tomorrow
Oh, tomorrow I owe you, don't I?
I know it ain't the money, girl
There never was money This usury's so typical
A piece of you for a piece of me
It's hard-coded
A piece of you for a piece of me And it's all right
Let's call it good
Ah, ah, little more
Let's make this even This usury's so typical
A piece of you for a piece of me
It's hard-coded
A piece of you for a piece of me This usury's so typical
A piece of you for a piece of me
It's hard-coded Is it really a sin if we both come out even?
Come out even
