

Unashamed

Memphis May Fire

[Verse 1]

I see a world running in circles,
They don't know what they're chasing.
They find the pain with the money and fame,
Looking for love in all the wrong places.

I see the look on their face,
I think they're about to cave in.
(I think they're about to cave in)

I can't just stand by and wait
Hoping that somehow they make it out,

So here I go! [Chorus]

I've got nothing to be ashamed of (I'm not ashamed),
So why should I hide and wait for someone else to say the word?
There is nothing to be afraid of (I'm not afraid),
So I'll spend my life speaking what I know needs to be heard. [Verse 2]

They hide their pain
And embrace the darkness,
Alone and what they're facing (what they're facing).

If I keep quiet
While I watch them dying
I am no different than the demons
That they're fighting. [Chorus]

I've got nothing to be ashamed of (I'm not ashamed),
So why should I hide and wait for someone else to say the word?
There is nothing to be afraid of (I'm not afraid),
So I'll spend my life speaking what I know needs to be heard. [Bridge]

I will illuminate with every word I say,
Until my dying day I will be unashamed.
I am no stranger to the pain of being hated (being hated),

But I just can't bear the weight
Of a life that's wasted. I won't waste it, no!

If I stare right into their eyes
And never say a word,
I gave up on who I'm to be (who I'm to be).

If I don't share this love I've found,

I am the one to blame.

This is not my secret to keep. [Outro]

(I've got nothing to be ashamed of, hey!)

I've got nothing to be ashamed of (I'm not ashamed),

So why should I hide and wait for someone else to say the word?
There is nothing to be afraid of (I'm not afraid),
So I'll spend my life speaking what I know needs to be heard.
I've got nothing to be ashamed of (I've got nothing to be ashamed),
So why should I hide and wait for someone else to say the word?
Until my dying day, I will be unashamed!
