

# A Skull Full of Maggots

## Cannibal Corpse

Lying there cold after a torturous death  
Your life ended fast you took your last breath  
Dead in a grave, your final place  
The maggots infest your disfigured face  
Puss through your veins takes the place of blood  
Decay sets in, bones begin to crack  
Thrown six feet down left to rot  
Brains oozing black down the side of your broken neck  
Skull full of maggots  
They enter your tomb maggots  
beginning to feast maggots  
Crawling on you maggots now they eat you maggots  
Rotting maggots maggots infesting your corpse maggots  
Parasites of the dead maggots now dwell in your head  
Lying there cold after a torturous death  
Your life ended fast you took your last breath  
Dead in a grave, your final place  
The maggots infest your disfigured face  
Puss through your veins takes the place of blood  
Decay sets in, bones begin to crack  
Thrown six feet down left to rot  
Brains oozing black down the side of your broken neck
