

Angel Dancing

Parker McGee

I won't forget that first time, Annie
I was afraid to try.
You told me I would never fall
If I only believed I could fly.
So I gathered my courage
And there I was -
Floating up so free and so light.
"But why doesn't everyone fly?"
I asked as we rose in the nightAngel dancing
Annie, take me to the sky
Angel dancing
I can really fly.

Annie, I can really fly.I told mom we went flying, Annie,
But she just smiled and said, "That's fine."
No one listens when I tell them about you
They say you're just some dream of mine.
Oh Annie look down there.
The lights of the city look like diamonds filled with fire.
And I can see the Milky Way
Could we go just a little bit higher?Angel dancing
Annie, take me to the sky
Angel dancing
I can really fly.

Annie, I can really fly.Oh Annie you can see the ocean from here
So high above the noise
Oh Annie could we fly somewhere
They don't laugh at flying boys?Angel dancing
Take me to the sky
Angel dancing
I can really fly.
Annie, I can really fly.
Angel dancing
Annie, take me to the sky
Angel dancing
I can really fly.

Annie, I can really fly.Fly away
Fly away
Fly
Fly away

Fly away
Fly "Mom and Dad - I'm taking off! I'm taking off! Goodbye!"

...

"You know what? I got something for you and me."

"Can you see some birds? I do!"
