

Tangled In Gore

Gorefest

Closed casket service has been asked for
Her face has deformed beyond belief
Stash the body down in basement
And fill the coffin up with rocksTwo hours later you are alone
Your perverted mind is taking control
Rip the clothes off the corpse
And make sure your dick is hardLook at her body tangled in gore
Touch her vagina, now you want more
Kiss her tits stiff [Incomprehensible]
Lift her body against the wallHang her on hooks so that she won't fall
Screw that cold one is what you want for all
When you are done you make her disappear
Closed casket service is what you hear
