No Such Thing As Time

Elenowen

It feels so right to hold you like this
There's so much I wanna say
The minutes are moving oh so fast
And the days are slippin' away
Time is our only enemySo how do we fight what we can't see?
I don't know but I'm trying
Lets meet tonight in our dreams
Baby why don't you lie down
Time is our only enemyAnd when I hold you everything slows down
When I know you inside and out,
I wanna show you there's no such thing as timeSo take a deep breath tonight
I wanna breathe you in
I finally know how to fight
It takes to hearts to win
Time is our only enemyAnd when I hold you everything slows down
When I know you inside and out,
I wanna show you there's no such thing as timeIt feels so right to love you like this
There's so much I wanna sayAnd when I hold you everything slows down
When I know you inside and out,
I wanna show you there's no such thing as
When I hold you everything everything slows down
When I know you inside and out
I wanna show you there's no such thing as time
There's no such thing as time
There's no such thing as time
There's no such thing as
