

# Face Down

Ed Struijlaart

I shut my eyes in search of sleep  
Tossed and turned and hoped for dreams  
Awakened by Your voice, what was so clear  
It felt so near to me  
I want Your love, I need Your touch I've been missing You so much  
I reach out for Your hand  
And now it feels like I am falling  
Down, down, down  
Till I kiss the ground, ground, ground Falling with my face down  
I'm giving up me, myself and I  
It's a bittersweet taste  
To swallow my pride Now face down is where I stay now  
If You see me standing up again  
Just knock me back down  
So I can live face down I'm on my face again  
It's where I should have been  
It brings me back to where I found You  
Where I first fell for You  
No more depending on myself It's You and me and no one else  
You stretch out Your hand  
And now it feels like I am falling into  
Love, love, love  
Can't get enough of love Falling with my face down  
I'm giving up me, myself and I  
It's a bittersweet taste  
To swallow my pride Now face down is where I stay now  
If You see me standing up again  
Just knock me back down  
So I can live face down Love, love, love  
Can't get enough of love Falling with my face down  
I'm giving up me, myself and I  
It's a bittersweet taste  
To swallow my pride Now face down is where I stay now  
If You see me standing up again  
Just knock me back down  
So I can live face down I've got to live face down  
I've got to live face down  
I've got to live face down  
Face down

I've got to live face down
