

# Wherever I Stand

## Taproot

If only I could show you  
Just how much I really care  
Everyday I'm torn apart  
Not knowing if you're even there Yet again  
You're a testimony  
Now and then  
That a greatness occasionally can come along Wherever I stand  
You're the one  
Who'll be right there with me  
Wherever I land  
You're the one  
Who'll be there to break my fall Whether fast or slow  
If only I could know you  
So every way I feel  
A part of something like you always do Yet again  
You're my sanctuary  
How and when  
That a greatness eternally does come along Wherever I stand  
You're the one  
Who'll be right there with me  
Wherever I land  
You're the one  
Who'll be there to break my fall Wherever I stand,  
Wherever I stand  
You'll be right there with me  
Wherever I land  
You're the one  
Who'll be there to break my fall No matter where  
No matter how  
I know that you'll be  
There by my side  
It feels so right The sting you share  
The fact I'm found  
I know more about  
What lies inside us gives me life Wherever I stand  
You're the one  
Who'll be right there with me  
Wherever I land  
You're the one

Who'll be there to break my fall  
Wherever I stand,  
Wherever I stand  
You'll be right there with me  
Wherever I land  
You're the one
