

You Just Can't Stop It

The Doobie Brothers

Who's gonna make you feel just right
When that music's playin'?
You gotta kick out the doors and turn out the light
When that music's playin'
When the thing cuts loose, it's out of hand?
You know you just can't stop it
Can't sit in your chair, you got to stand
You know you just can't stop it We can make it, we can shake it in a little while
We can make it
Down to the corner where the night's goin' hog wild
We can make it, we can shake it in a little while
We can make it
Down to the corner where the night's goin' hog wild That's right Whole damn place keeps blowin' high, yea
Guitar man sets the strings on fire
Hey, now it's 'bout time to set things straight
You know you just can't stop it
So now it's time to advocate
You know you just can't stop it, yea We can make it, we can shake it in a little while
We can make it
Down to the corner where the night's goin' hog wild
We can make it, we can shake it in a little while
We can make it
Down to the corner where the night's goin' hog wild Who's gonna make you feel just right
When that music's playin'?
You gotta kick out the doors and turn out the light
When that music's playin'
When the thing cuts loose, it's out of hand?
You know you just can't stop it
Can't sit in your chair, you got to stand
You know you just can't stop it, yea, yea We can make it, we can shake it in a little while
We can make it
Down to the corner where the night's goin' hog wild
We can make it, we can shake it in a little while
We can make it
Down to the corner where the night's goin' hog wild
