

Groove Of Christmas

[Ali Lohan](#)

Let's get in the mood for Christmas
Lets get in the groove of Christmas
I cant wait its almost Christmas (A time so dear)
So much fun to wake up on Christmas
Time to celebrate its Christmas (spread love and cheer)
Gather round everyone Christmas is getting near
Its that time when loves in the air
Had to wait through the year for this time to be here
Its that time when everyone cares
Lets get in the groove of Christmas (Christmas time)
I cant wait its almost Christmas (a time so dear)
So much fun to wake on Christmas day (cause its that time)

Time to celebrate its Christmas (spread love and cheer)
Positive energy as we laugh cheerfully having fun with family and friends
(come on lets get in to it) Hanging lights on the tree
Hang a Santa Clause for me let the Christmas spirit begin
Lets get in the groove of Christmas (Christmas time)
I cant wait its almost Christmas (a time so dear)
So much fun to wake on Christmas day (cause its that time)
Time to celebrate its Christmas (spread love and cheer) on Christmas yeah
Come on lets get into it we've got to get into it
Lets get in the mood foe Christmas
Hanging the Christmas lights lets make ginger bread cookies tonight
Lets get in the mood for Christmas
