

# Do What You Want

## Bad Religion

Hey, do what you want but don't do it around me  
Idleness and dissipation breed apathy  
I sit on my ass all goddamn day  
A misanthropic anthropoid with nothing to say what you must, do all you can  
Break all the fucking rules  
And go to hell with Superman  
And die like a champion, ya hey Hey, I don't know if the billions will survive  
But I'll believe in God when one and one are five  
When moniker is man and I'm rotten to the core  
I'll tear down the building just to pass through the door So do what you must, do all you can  
Break all the fucking rules  
And go to hell with Superman  
And die like a champion, ya hey
