

Blow It In the Wind

Chris Brown

Oh baby, you stay on my brain

I smoke, kick back and think

Sometimes a nigga be lonely, so many bitches, I ain't gotta be

So got the crew on the way, huh, no work, all play

I got a castle with the boat

Everybody, we gon' live it up, aye

Keep talking mami but I ain't tryna hit it right now no no

Oh keep watching me

But we still gonna have good time right nowLet's take a trip, don't have to think about

If you're new to this let me show you how

Raise your middle finger to your problems, yeah

If you let 'em, they gon' bring you down

Keep tripping on us but we just stunting on 'em right now now now

Ay! they hating on us, they just mad 'cause we way up, right nowSo blow it in the wind (blow my weight up)

Let the sparks fly now, get your mind blown

Let the good times get your back, let the sparks fly now

We can smile and then they wonder why, we up now

So blow it in the wind

We can't let them other niggas kill the vibe

So blow it in the wind

All that bullshit, we gon' let it rideSo fuck it, call in sick

They don't pay enough anyway

Shit you might as well quit

'Cause every now and then you need a break, girl

I feel you, I'mma pour it up right now now now

Aye! So fall through 'cause they gon' have to shut us downLet's take a trip, don't have to think about

If you're new to this let me show you how

Raise your middle finger to your problems

If you let 'em, they gon' bring you down (oh)

They tripping on us but we just stunting on 'em right now now now

Ay! they hating on us, they just mad 'cause we way up, right nowSo blow it in the wind

Let the sparks fly now

Let the good times get your back

Let the sparks fly now

We can smile and then they wonder why, we up now

So blow it in the wind

We can't let them other niggas kill the vibe

So blow it in the wind

All that bullshit, we gon' let it rideHit the corner, swerving left to right

You know we get to ducking when we see them lights
I catch a charge and beat it
I pop a 30, codeine got me leaning
Yeah yeah, you know the strong don't quit
Yeah you know my shooters don't miss
Steady double cup in the fifth, ice
Me and my niggas we young, black and rich, whassup
I've got my feet up in the two seater
Niggas stay looking but don't wanna see us
So to the haters and true believers
All my people, you know I see ya
Like hey yeah, hey yeah yeah yeah, yea yea yea yeah sing it baby like
Hey yeah, hey yeah yeah yeah, yea yea yeah
Hey yeah, hey yeah yeah yeah, yea yea yeah
Hey yeah, hey yeah yeah yeah, yea yea yeahSo blow it in the wind
Let the sparks fly now
Let the good times get your back
Let the sparks fly now
We can smile and then they wonder why, we up now
Blow it in the wind
We can't let them other niggas kill the vibe
So blow it in the wind
All that bullshit, we gon' let it ride (oh oh oh)
That's right girl we gon' let it ride (oh oh)
