

# I'm Out

Ashlee Simpson

Your face, I'm a mess  
All I know is not enough  
I can't deal with one-sided love  
All I know you're not enough  
Love, this place is haunted  
The walls are staring back at me  
Lover, you're the reason my light's dimmer than me  
All the city's screaming  
I can't be here anymore  
Now the lights are brighter  
You're still dancing on the floor  
And I'm out  
You're on a wild without me  
Can't you see, I'm not enough  
I can't change, there's no blame  
Yeah, I know we're not enough  
Love, this place is haunted

The walls are staring back at me  
Lover, you're the reason my light's dimmer than me  
All the city's screaming  
I can't be here anymore  
Now the lights are brighter  
You're still dancing on the floor  
And I'm out  
Everything is faded  
My heart feeling jaded  
Your not here with me, boy  
This is what it is, so let go  
All the city's screaming  
I can't be here anymore  
Now the lights are brighter  
You're still dancing on the floor  
And I'm out  
And I'm out
