

Picnic On the Moon

Bel Canto

Have I ever told you what I feel
About what's to come and the way we live?
Ever since I was a little kid
I've been cautious and I've sealed my lipsBut then I found this book inside a drawer
A girl treasuring thoughts
Here's what I wroteThat one day, we will fly
Together in a baron's balloon
Straight up into the air
And when we have arrived
We'll take a little picnic on the moon
And watch the earth belowI'm lost again
Needing a friend
'Cause I'm so alone
