# The Black Light

## Calexico

Leave the heart of the city
For the heart of the world
Leave the heart of this city
Love the way her trust unfurlsFollow her hand
To the dark end of the street
Cross in the night
Invisible to the electric eyeAnd sippin' on a little night train
Slippin' in to stay warmSleep by day, keep moving
Sleep by day, keep moving
Moving at night
Sleep by day, moving at nightFollow her hand
To the dark end of the street
Cross in the night
Become invisible in a blink of an eyeOut past the border patrol
Who's thunderbird's no match
A helicopter shadow follows you
Way out past the downtown city glowCross the Santa Cruz and I-10
Through the Rincon Mountains
And Cochise Stronghold, South of the Chiricahuas
Drifting, drifting, drifting, drifting, drifting, drifting
