Way to be Loved

TOPS

Walking down the sidewalk,
Is that the way that you wanna be seen?
Face that won't forget you,
Photographic memory.Impression that you're drawn to,
Make it good.
Make it last.
Waiting for the moment for so long,Ready for the dance,Is that the way that you want to be loved?
Is that the way that you wanna be loved?
Is that the way that you want to be loved?
Is that the way that you wanna be loved?Ready with your story,
Funny guy,
Cartoon.
Always saying sorry,
Hold on, there's something you're gonna lose.
The man who turns the lights on,
The lover who never has to choose,
The girl he set his sights on,
Lacing up her shoes.Is that the way that you want to be loved?
Is that the way that you wanna be loved?
Is that the way that you want to be loved?
Is that the way that you wanna be loved?Is that the way that you are?
I can picture you staring,
Out the window, not caring.
The nights go by,
Oh, the nights go by.
Is that the way that you are?
Wear your hair down alone,
Tie it up when he's there,
And tell me that nothing's wrong.
