

Epic Last Song

Does It Offend You, Yeah?

I can't believe I've made it here
Today I'm afraid of yesterday
I wrote this letter to you, my dear
In case, afraid this fades awayI say baby, babe I've loved you a long time
I try harder just to know you're all mine
I say baby, babe I've loved you a long time
I go happy knowing that you're alrightI called today but missed you again
Today's the day I go up in flames
I sent the money to you, my dear
Today's the day I burn awayI say baby, babe I've loved you a long time
I try harder just to know you're all mine
I say baby, babe I've loved you a long time
I go happy knowing that you're alright
I go happy knowing that you're alrightI say baby, babe I've loved you a long time
I try harder just to know you're all mine
I say baby, babe I've loved you a long time
I go happy knowing that you're alright
