Give It to Me

[Isaac Hayes](#)

I've been diggin' on you little girl
Every time you stroll by
And I can't help but notice
The sad look in your eyesEver didn't be your man and hurt you
The pain is on your face
It's a shame to see
All that good lovin', just go to wasteSo don't waste it, don't waste it
Don't waste it, baby
Just give all that good lovin' to me
Give it to me, you see, I can use itAlso know how it feels
To be the victim of a bad relation
So don't you feel all by yourself
Because we're in the same situationYou need love and I need love
We both got love to give
So let's stop drowning in our sorrows
Let's get together and liveSo don't waste it, don't waste it
Don't waste it, baby
Just give all that good lovin' to me
Let me use it, I can use itDon't waste it, don't waste it
Don't waste it, baby
Just give all that good lovin' to me
I can use it, I'm gonna use it
