Mona Lisa

Dinosaur Pile-Up

Hello, I left a message on your telephone
Pick it up so you understand
That I'm on the edge and I need help
and I don't mind
'Cause I have no money and I'm outta time
Because nobody wants me
It's okay, least I got myselfCome on
Move out, move outta home
'til you work it out
You been living alone
Under the same old roof for far too longI don't know
I can tell by my honey (???)
All I need is some money
God knows I tried so damn longWork it out
No-one wants you now
Can you work it out
Mona LisaWhen I look around outside
I realise I've died inside
A tiny hole
And then I feel so old
And if I'm old I'll die
and when I die I'm old
So I'll try and try until I work it outWhen I look outside
I realise I've died inside
A tiny hole
And then I feel so old
And if I'm old I'll die
and when I die I'm old
So I'll try and try until I work it out
Work it out
Work it out
Work it out andListen up
Everything's changing you should smarten up
You should go back and study
Everything's up in the air
But if you ring me up
Give me a chance
and I'll paint you up, I'll paint you Mona Lisa
All ya have to do is stand and stareWork it out

No-one wants you now
Can you work it out
Mona LisaWhen I look around outside
I realise I've died inside
A tiny hole
And then I feel so old
And if I'm old I'll die
and when I die I'm old
So I'll try and try until I work it outWhen I look outside
I realise I've died inside
A tiny hole
And then I feel so old
And if I'm old I'll die
and when I die I'm old
So I'll try and try until I work it out
Work it out
Mona Lisa
Get out
Work it out
Mona Lisa
Get out (x4)OutWhen I look around outside
I realise I've died inside
A tiny hole
And then I feel so old
And if I'm old I'll die
and when I die I'm old
So I'll try and try until I work it outWhen I look outside
I realise I've died inside
A tiny hole
And then I feel so old
And if I'm old I'll die
and when I die I'm old
So I'll try and try until I work it out
Work it out
Work it out
Work it out andHello, I left a message on your telephone
Pick it up so you understand
