

Don't Walk Away

[Mxpx](#)

I need the comfort, that's in your arms
Squeeze and hold me tight and keep me warm
I need the passion, that's in your heart
Say you'll never leave and be apart So don't walk away, don't turn your back
If you leave today, my whole world would turn black
So don't walk away, don't change your mind
It's time you took the chance and put your hand in mine
So don't walk away It need the glow of your darling face
Accept this crown of love and live in grace
I need the colors painted in your mind
Your beauty and your brilliance so hard to find So don't walk away, don't turn your back
If you leave today, my whole world would turn black
So don't walk away, don't change your mind
It's time you took the chance and put your hand in mine You are my angel please don't be afraid
You are my saving grace, my hearts first aid
So don't walk away, so don't walk away So don't walk away, don't turn your back
If you leave today, my whole world would turn black
Don't walk away, don't change your mind
It's time you took the chance and put your hand in mine
So don't walk away, don't walk away, so don't walk away
