

Like I Care

Helmet

I'm paralyzed
Just listening to you
Now I am receptive I know you sleep
So sound every night
And you are deceptive It always feels good to be right
And if it helps you sleep at night
I'll tell you what you want to hear
And act like I care Ooh It always feels good to be right
And if it helps you sleep at night
I'll tell you what you want to hear
And act like I care It always feels good to be right
And if it helps you sleep at night
I'll tell you what you want to hear
And act like I care Act like I care
Act like I care
Act like I care
