Big Gun
Last Action Hero Soundtrack (1993)
(Young, Young)
Noises from Brian
Riot on the radio, pictures on the TV
Invader man take what he can, shootout on the silver screen
Stickin' 'em up and knocking them down, living out a fantasy
There's a bad man cruising around in a big black limousine
Don't let it be wrong, don't let it be right
Get in his way, you're dead in his sights
Big gun
Big gun
Number one
Big gun
Big gun kick the hell out of you
Terminators, Uzi makers, shootin' up Hollywood
Snakes alive with a forty-five, getting off and doing no good.
If you ain't wise, they'll cannibalise, tear flesh off you
Classified, lady killers, prayin' in the human zoo
They saddle you up and take you to town
Better look out, when he come around
Big gun
Big gun
Number one
Big gun
Big gun kick the hell out of you
Show down
Yeah
LEAD BREAK + more noises from Brian Johnson
Big gun
Big gun
Number one

buba buba buba buba buba buba
Big gun, gotta hot one
Big gun, gotta number one

Big gun, loaded and cocked
Big gun, hot hot hot
Got big gun, ready or not
Big gun, give it, give it a shot, come on
(During next two lines Big Gun is repeated in background)
Terminator, Uzi Maker
Regulators, gonna get you later
Big gun kick the hell out of you
