Not the Same

Dinosaur Jr.

On this day, where youre so messed its clear
Cant explain the road you roam
Anyone, whos beenAs I walk with you, it chills me so
To hear you say, its gone the worse
[Incomprehensible], so I caredHere I dream, I always talked to you
You seem fine again, my sweet
Feels alright to meIs it right for you?
Flippin out I try to call to you, till you come to me
Tell me, what to do?And I know its not the same, theres no blame
But still I bother you
And you say its not true, dear, its mine to fear
Follow throughCome alive, I know youll sing with me
I wont sing to you, its not a thing I doHow's it been a different feel for you?
Wholesomeness was gone along
Or is it something new?And I know its not the same, theres no blame
But still I bother you
And you say, its not true dear, its mine to fear
We wont coexistAnyway youre not the same, its the blame
Follow throughIts a lingering that comes through me
Does it come to you?
Are we really through?Any guy would do this thing for me
Its not much to ask
Why cant you?Im not gonna say, Ive had my way
You should solve it out
What else can I do?You promised so much, lied with every touch
I believed in youFollow through
