Heartbeat

Red Circle Underground

Raise your head and hold your whispers
And wait for all to be
Past your place, it won't be seen
A sense of harm will tease,
I'll wait

Take it all and take it often
The lack is all I need
Ways to shine and ways to hurry
I tell them all i can

Give him over when your done (give him over when you're done)
Won't hide my shame (won't hide my shame)
Give him over when your done (give him over when you're done)
Won't hide my shame (won't hide my shame)

Selfish eyes for selfless dreamers
Awake from all the noise
Hold my hand and walk me through
I tell em all I can

Give him over when your done (give him over when you're done)
Won't hide my shame (won't hide my shame)
Give him over when your done (give him over when you're done)
Won't hide my shame (won't hide my shame)

I've seen better days
Cut me off,
Would you cut me off now?
Who are you,
To go and take what you want?

I've seen better days
Cut me off,
Would you cut me off now?
Who are you,
To go and take what you want?
