

# Special Girl

## America

Into each life, a little sunlight wants to shine  
Let me tell you, a fortune like that once was mine  
She was a special girl  
She meant the world to me  
I gave her everything  
When I found her, I'd been looking everywhere  
When I lost her, I was lost beyond despair  
She was a special girl  
She meant the world to me  
I gave her everything  
Dreams are hard to take  
(Dreams are hard to take)  
Could it be I loved her too much?  
A special girl  
A special girl  
She was a special girl  
She was a special girl  
She meant the world to me  
I gave her everything  
Bottom line is, she was fine in every way  
And it's not with hesitation that I say  
She was a special girl  
She meant the world to me  
And I gave her everything  
Dreams they come and go  
(Dreams they come and go)  
But thoughts of her are like a floor show  
A special girl  
A special girl  
She was a special girl  
She was a special girl  
She meant the world to me  
I gave her everything
