Forever

Crystal Kay

Burning upMe and you foreverHush-hush
Crazy
Noisy
ButI can see it in your eyesYou love to love to love to love to love to love me
Can you see it in my eyes?
So special
I love to love to love to love to love to love to love youBreak up
...So
Make it last foreverHush-hush
Crazy
Noisy
ButI can see it in your eyesYou love to love to love to love to love to love me
Can you see it in my eyes?
So special
I love to love to love to love to love to love to love youOh this love is one of a kind
Baby you are always on my mindI'mma follow you follow you follow you follow you follow you
Follow you follow you follow you follow you follow you
Baby follow me follow me follow me follow you
Baby follow me follow me follow me
ForeverHush-hush
Crazy
Noisy
ButI can see it in your eyesYou love to love to love to love to love to love me
Can you see it in my eyes?
So special
I love to love to love to love to love to love to love you
