Heart Like Mine

Blue Rodeo

Don't you know
That we're out of touch?
Yeah, we fight too much
How'd we ever get so messed up?Every night, we say the craziest things
You know our words, they once had wings
Now it's all covered up in double-talk and lies
There's a stranger looking back when I look in your eyesHey, don't you know
That we're out of touch?
Yeah, we fight too much
How'd we ever get so messed up?Every night, we say the craziest things
You know our words, they once had wings
Now it's all covered up in double-talk and lies
There's a stranger looking back, when I look in your eyesI just want to find a heart like mine
I just want to find a heart like mine
A heart like mine, a heart like mineAnd you call me a fool
'Cause I still feel the same
You say that your love has changed
Ah, here we go again, yeahClose your eyes
Tell me what do you see, do you still remember me?
Like some Mexican diplomat, after the fact
Air-brushed from history, swept under the matI just want to find a heart like mine
I just want to find a heart like mine
A heart like mine, a heart like mineAs I walk out the door, I step into a dream
The world's quiet and I feel free
But things are never what they seem
'Cause then I hear you callAnd I warn myself
Now don't go back, but slow motion attacks
Like some Mexican diplomat, after the fact
Air-brushed from history, swept under the matI just want to find a heart like mine
I just want to find a heart like mine
A heart like mine, a heart like mine
