

It's Time

Kurupt

Full moon's light is calling me
My kingdom lies within
The mystic soul and lion's heart
Brought by the talismanThe ecstasy of battle takes me
Where the falcons fly
Immortal youth was granted me
I will never dieBorn of black wind, fire and steel
Born of black wind, fire and steel
Born to teach them all to heel
Born of black wind, fire and steelPounded by the hammers
Of the giants of the world
I can see in darkness
I'm the overlordSingle combat I await
My shadow brings them fear
The spikes upon my chariot
Will grind them when they're nearBorn of black wind, fire and steel
Born of black wind, fire and steel
Born to teach them all to heel
Born of black wind, fire and steelI am an outcast
On the path of no return
Punisher and swordsman
I was born to burnBlack wind always follows
Where my black horse rides
Fire's in my soul
Steel is on my sideBorn of black wind, fire and steel
Born of black wind, fire and steel
Born to teach them all to heel
Born of black wind, fire and steelI am an outcast
On the path of no return
Punisher and swordsman
I was born to burnBlack wind always follows
Where my black horse rides
Fire's in my soul
Steel is on my sideBorn of black wind, fire and steel
Born of black wind, fire and steel
Born to teach them all to heel
Black wind, fire and steelBlack wind, fire and steel
Black wind, fire and steel
Born to teach them all to heel

Black wind, fire and steelBorn of black wind, fire and steel
Black wind, fire and steel
Born to teach them all to heel
Black wind, fire and steelBlack wind, fire and steel
Black wind, fire and steel
Born to teach them all to heel
Born of black wind, fire and steel
