It's Time

Kurupt

Full moon's light is calling me

My kingdom lies within

The mystic soul and lion's heart

Brought by the talismanThe ecstasy of battle takes me

Where the falcons fly

Immortal youth was granted me

I will never dieBorn of black wind, fire and steel

Born of black wind, fire and steel

Born to teach them all to heel

Born of black wind, fire and steelPounded by the hammers

Of the giants of the world

I can see in darkness

I'm the overlordSingle combat I await

My shadow brings them fear

The spikes upon my chariot

Will grind them when they're nearBorn of black wind, fire and steel

Born of black wind, fire and steel

Born to teach them all to heel

Born of black wind, fire and steelI am an outcast

On the path of no return

Punisher and swordsman

I was born to burnBlack wind always follows

Where my black horse rides

Fire's in my soul

Steel is on my sideBorn of black wind, fire and steel

Born of black wind, fire and steel

Born to teach them all to heel

Born of black wind, fire and steelI am an outcast

On the path of no return

Punisher and swordsman

I was born to burnBlack wind always follows

Where my black horse rides

Fire's in my soul

Steel is on my sideBorn of black wind, fire and steel

Born of black wind, fire and steel

Born to teach them all to heel

Black wind, fire and steelBlack wind, fire and steel

Black wind, fire and steel

Born to teach them all to heel

Black wind, fire and steelBorn of black wind, fire and steel
Black wind, fire and steel
Born to teach them all to heel
Black wind, fire and steelBlack wind, fire and steel
Black wind, fire and steel
Born to teach them all to heel
Born of black wind, fire and steel
