Glow In The Dark

Diggy Simmons

Ive got it, yeah Ive got it, yeah Ive got itIve got a fire in me
Theres so much I have to see
From where I was before
To how far Ive yet to goIm gonna raise my hands
Gonna take a stand
Gonna turn my voice up loudI'm glow in the dark now
Glow in the dark now, now, now
I'm glow in the dark now
Glow in the dark now, now, now, now(Ive got it, now, now, now, now, Ive got it, yeah Ive got it, Ive got it)Ive got a fire in me
Its so bright I cant believe
I was ever scared before of things
I could not controlIm gonna raise my hands
Gonna take a stand
Gonna turn my voice up loudI'm glow in the dark now
Glow in the dark now, now, now
I'm glow in the dark now
Glow in the dark now, now, now, nowStrange light, follow as it burns
Strange life, of unexpected turns
You fight on and even if you fall
You get back up againI'm glow in the dark now (Some hearts youll never win)
Glow in the dark now, now, now (And some pain never ends)
I'm low in the dark now (But these are the shoes youre walkin in)
Glow in the dark now, now, now, now (So just get back up again)
Now, now, now (just get back up again)
