

I Hate You This Christmas

[Kate Nash](#)

Advisory - the following lyrics contain explicit language:

Got too drunk at the christmas party
Puked on my dress, shit! I guess I better leave
On the way home, I took a detour
I wanna see you
I wish I never saw Get the key from under the mat
Trying to find the light, I stumble around
I think I heard a noise, what's that sound?
Well, that's my best friend and you are going down It's christmas once again but you are fucking one of my
friends
Well, I hope her candy cane tastes better than
My undying love that won't weather
It's christmas once again but you are fucking one of my friends
Well, I hope her candy cane tastes better than
My undying love that won't weather
I hate her
I hate her
I hate you
This christmas Everyone's excited about going home
But I am embarrassed to tell my mom
All the christmas lights and the mistletoe are only making me feel more alone
All the skater kids are stoned on the hill, even the goths are filled with good will
I head to the bar to see old faces
We're in old streets but new places It's christmas once again but you are fucking one of my friends
Well, I hope her candy cane tastes better than
My undying love that won't weather
It's christmas once again but you are fucking one of my friends
Well, I hope her candy cane tastes better than
My undying love that won't weather
I hate her
I hate her
I hate you
This christmas Well, I guess there's other girls you fucked

Well, I guess that means you really suck
Well, I hope you feel alone this christmas
You can say goodbye to this cause
I am never coming backIt's christmas once again but you are fucking one of my friends
Well, I hope her candy cane tastes better than
My undying love that won't weather
It's christmas once again but you are fucking one of my friends
Well, I hope her candy cane tastes better than
My undying love that won't weather
I hate her
I hate her
I hate you
This christmas
