

# In My Bedroom

B5

Sittin' in my, can't be without you  
Sittin' in my, yeah I need you Never been known as a player but ain't nobody gon' say  
(I ain't had my share)  
But we ain't even gots to go there now, you were so contagious  
Always lookin' famous, you took my heart I swear  
Never saw it comin' when you said you was gone, ooh girl But it was all about love  
Never thought that you'd switch it up  
Never knew how it felt  
But I can't take it Got me sittin' in my bedroom, tryna get over you  
Hopin' you still think about me  
Got me sittin' in my bedroom, tryna get over you  
But I can't stop thinkin' 'bout the one I know I can't do without All my friends they told me that you was bound  
to show me  
(That you's a gold digger, didn't even know what's up)  
But I know that my heart is so torn up that I can't stand it  
So mixed up but I still let it get to me  
(Say I'm not goin' out like that)  
But here I stand But it was all about love  
Never thought that you'd switch it up  
Never knew how it felt  
But I can't take it Got me sittin' in my bedroom, tryna get over you  
Hopin' you still think about me  
Got me sittin' in my bedroom, tryna get over you  
But I can't stop thinkin' 'bout the one I know I can't do without You play with my heart girl  
And I don't understand why  
Still in my eyes you are the girl  
I want to be in my life Got me sittin' in my bedroom, tryna get over you  
Hopin' you still think about me  
Got me sittin' in my bedroom, tryna get over you  
But I can't stop thinkin' 'bout the one I know I can't do without Got me sittin' in my bedroom, tryna get over you  
Hopin' you still think about me  
Got me sittin' in my bedroom, tryna get over you  
But I can't stop thinkin' 'bout the one I know I can't do without I can't be without you, baby  
I can't be without you, baby
