# Butterfly

## The Nixons

We're beside you when you walk, leave the navigation to us
See the questions form around minds craving fullnessJust another listen, you might find
Just another listen until you can
See me changing just like butterfly
We belong in a better place in a better timeFeel your dizzy to the touch, never down, we're falling up
Break free from your cocoon, transformation coming soonJust another listen and you might find
Just another listen until you can
See me changing just like butterfly
We belong in a better place, in a better time
