## **Ready Or Not**

## Cascada

What is my destination? Spinning so fast I can't slow down I lose my head when you're around, yeah Don't tell me to run away from this Cause you've got the love I can't resist How can I breathe? How should I feel? Holding me back Baby what you do, what you do, what you do to me Makes me want to be somebody I'm not Every time you do, what you do, what you do to me Take your chance boy, ready or not Baby what you do, what you do, what you do to me Makes me want to be somebody I'm not Every time you do, what you do, what you do to me Take your chance boy ready, ready or not Take your chance boy, ready or not Longing for inspiration

Somehow you turn me inside out I need an explanation now, right now Don't tell me to run away from this Cause you've got the love I can't resist How can I breathe? How should I feel? Holding me back Baby what you do, what you do, what you do to me Makes me want to be somebody I'm not Every time you do, what you do, what you do to me Take your chance boy, ready or not Baby what you do, what you do, what you do to me Makes me want to be somebody I'm not Every time you do, what you do, what you do to me Take your chance boy ready, ready or not Baby what you do, what you do, what you do to me Makes me want to be somebody I'm not Every time you do, what you do, what you do to me Take your chance boy ready, ready or not
