Ready Or Not

Cascada

What is my destination? Spinning so fast I can't slow down I lose my head when you're around, yeah Don't tell me to run away from this Cause you've got the love I can't resist How can I breathe? How should I feel? Holding me back Baby what you do, what you do, what you do to me Makes me want to be somebody I'm not Every time you do, what you do, what you do to me Take your chance boy, ready or not Baby what you do, what you do to me Makes me want to be somebody I'm not Every time you do, what you do, what you do to me Take your chance boy ready, ready or not Take your chance boy, ready or not

Somehow you turn me inside out
I need an explanation now, right now
Don't tell me to run away from this
Cause you've got the love I can't resist
How can I breathe?
How should I feel?
Holding me back

Longing for inspiration

How should I feel?

Holding me back

Baby what you do, what you do, what you do to me

Makes me want to be somebody I'm not

Every time you do, what you do, what you do to me

Take your chance boy, ready or not

Baby what you do, what you do, what you do to me

Makes me want to be somebody I'm not

Every time you do, what you do, what you do to me

Take your chance boy ready, ready or not

Baby what you do, what you do, what you do to me

Makes me want to be somebody I'm not

Every time you do, what you do, what you do to me

Take your chance boy ready, ready or not
