## Sunny Day Real Estate

Stay around
Running out time servant
Trip through the warm windFeeling, sulking
My impression grows
Swayed stars part of my room and youYou climbed the wreck
Cold diamond heart still beating
And no one ever knew the reason whyWell, I'd suspect
You would come to terms with my hand
My eyes reflect your surface very wellWhy'd I compromise
Swayed stars and time is slow
The why you restarts againI'm all talk again
I'm on top of the world
The why you restarts in me tooThe nights a field
And I'll take you there
The years of worry aren't my centuryWe climbed the wreck
Cold diamond heart still beating
And no one ever knew the reason whyWell, I'd suspect
You would come to terms with my hand
My eyes reflect your surface very well
