

This Time

Digital Summer

The image slips away,
And I'm left here with nothing
The memories of words that I didn't say
If I had a choice
To turn back the page
I'd take you and fly away [This time]
I don't care what it takes this time
I'll do anything to make things right
The hardest day of my whole damn life
Was the day that I said goodbye
[This time]
I don't care what it takes this time
I'll do anything to make things right
The hardest day of my whole damn life
Was the day that I said goodbye I'm sorry I was gone
But now I know how you feel
I try to think of anything but the pain
If I cut myself today
Will I bleed tomorrow?
Will you remember me? [This time]
I don't care what it takes this time
I'll do anything to make things right
The hardest day of my whole damn life
Was the day that I said goodbye
[This time]
I don't care what it takes this time
I'll do anything to make things right
The hardest day of my whole damn life
Was the day that I said goodbye Is all for you
Is all for you
Is all for you
Everything,
This time we'll fly away
Let go and fly away
Soon fly away
So fly with me
I'd risk everything
I'd take everything

I'd risk ever fall
For you[This time]
I don't care what it takes this time
I'll do anything to make things right
The hardest day of my whole damn life
Was the day that I said goodbye
[This time]
I don't care what it takes this time
I'll do anything to make things right
The hardest day of my whole damn life
Was the day that I said goodbye
