Goldfish Brain

That Handsome Devil

Brain like a goldfish
Same old shit but the bowl's switched
You can tell me your name
But Iâ€™ll never know it
The people I looked up to
They quit and gave up
Well I donâ€™t give a shit cause they suck
Bragged about money and the bitches they fucked
Take your free love and your tree hugs
The things that you're in need of, beliefs and dreams you dreamed up
Sometimes Iâ€™m way ahead, sometimes I fall behind
Quittinâ€™ drugs is easy, I do it all the time
Sometimes youâ€™re way ahead, sometimes youâ€™re far behind
Well quittinâ€™ stuff is easy baby, you do it all the time

Whiskey set me free
Policemen let me be
Iâ€™m just waiting here for someone I believe
(Lie to me!)
Whiskey set me free
Policemen let me be
Iâ€™m just waiting here for someone, lie to me
(I believe!)

Now Jesus is hanging up there on that cross
You gonna help me man, or you just gonna watch?
Well Jesus is hanging up there on that cross
You cominâ€™ back around again or not?

We were drinking in the daytime, trying to walk a straight line
I donâ€™t know about you, but Iâ€™m having a great time
We were drinking in the daytime, trying to walk a straight line
I donâ€™t know about you girl, but Iâ€™m having a great time
Control us with churches, bullets, and hearses
Kill all the poets we worship, your revolution was from the commercial

Whiskey set me free
Policemen let me be
Iâ€™m just waiting here for someone I believe
(Lie to me!)

Whiskey set me free
Policemen let me be
Iâ€™m just waiting here for someone, lie to me
(I believe!)

Hey!
You want fun? I get it, I was young and I wanted some
Hey!
Ainâ€™t shit changed, goldfish brain
x4

Hey!
Hey!

Whiskey set me free
Policemen let me be
Iâ€™m just waiting here for someone I believe
(Lie to me!)
Whiskey set me free
Policemen let me be
Iâ€™m just waiting here for someone, lie to me
(I believe!)
x2
