Jumped Right In

Dallas Smith

Love is crazy, crazy as two kids
Driving around in a z20, hey, trying to figure out what love is
An all season beach town, boarded up and closed down
When the tourists had all gone home
And we were on that beach aloneSaying come on, come on, come on, come on
Come on before the thrill is gone
Can taste the sunlight on your lips
T-shirts off and jeans unzippedSix pack of beer on a footprint trail
Man, that water was cold as hell
Goosebumps on our suntanned skin
Ran full speed and jumped right in
When you're young it's how it goes
Nothing to lose except our clothes
And we didn't know any better back then
We just closed our eyes and we jumped right inBlue up above us, and blue all around
I don't know what song it was, but I know it was Jackson Brown
And there in the twilight, we held each other close
I don't think anyone saw but if they did they sure got a showSaying come on, come on, come on, come on
Come on before the chance is gone
Can taste the sunlight on your lips
T-shirts off and jeans unzippedSix pack of beer on a footprint trail
Man, that water was cold as hell
Goosebumps on our suntanned skin
Ran full speed and jumped right in
When you're young it's how it goes
Nothing to lose except our clothes
And we didn't know any better back then
We just closed our eyes and we jumped right inOh, I stood there as her plane hit the sky
I don't know where she is right now
But she's still here in my mindSaying come on, come on, come on, come on
Come on before the thrill is goneWhen you're young it's how it goes
Nothing to lose except our clothes
And we didn't know any better back then
Well, we ran full speed and we closed our eyes
And we jumped right in
