The Proposal

U-N-I

The Proposal
You came and you made my day girl
I won when you looked my way girl
My life has not been the same girl
All I do is think of you
Your smile brightens up my place girl
And your kiss and that tender way girl
Let's me know everything's okay girl
It should be you and me
'Cause your love has proven to be what I need
And your life brings peace into my world
Now my dreams come true and it's all because of you
Come on let's walk this walk together
Close the deal, make it forever
(My heart) You can have it
(My world) Come live in it
(Your touch) Let me feel it
(Your love) Girl I need it
(My God) Come on let's serve Him
(My heart) Let's move on it
(My life) Come on and share it
(By faith) And we can make it
Yeah
Okay now you know the plan girl
You're mine and I am your man girl
It's real, it's real, this is not a dream girl
Faithfully, you and me
So let me make it clear
When it's said and done girl
You're my gift, you are my one girl
Ohh
Our love will just grow stronger girl
Hand and hand, you and me
My heart, Oh girl you are my melody
Turning all my cloudy days to sun
Come and sing with me
Joined in love and harmony
'Cause I'm sure, I'm 100 you are the one, whoa whoa

(My heart) You can have it
(My world) Come live in it
(Your touch) Let me feel it
(Your love) Girl I need it
(My God) Serve Him with me
(My heart) Let's move on it
(My life) Come on let's share it
(By faith) 'Cause we can make it girl
(My heart) You can have it
(My world) Come live in it
(Your touch) Let me feel it
(Your love) Girl I need it
(My God) Come on let's serve Him
(My heart) Serve Him together
(My life) Come on let's share it
(By faith) We can make it
'Cause your love it's proven to be what I need
Yes your life brings peace into my world
With this ring I promise you can trust each word I say
I'll be faithful and devoted and my heart will never stray
So much love I have for you
And each day I love you more
Satisfaction guaranteed
Never been loved like this before
Yes your love has proven to be what I need
Yes your life brings peace into my world
Now my dreams come true and it's all because of you
Come on let's walk this walk together
Let's close the deal, let's close the deal
In my heart, oh girl you are my melody
Turning all my cloudy days to sun
Join with me in love and harmony
Let's do this thing together girl come let's do this thing together
Oh Lord, I stand before you here and now
Asking for this girl that I adore
Oh grant to me, 'cause I know that You can see
I am that man that she's been looking for
Ahh, Uhh, Yeah, Umm!
