

love One Another

Tony Rebel

-P. Barrett-One of the greatest four letter words

My eyes have behold and my ears ever heard

I say every other thing come second and third

Love a the power, watch thisChorus:

I say unnu love one another

I telling unnu to love one another,

I want you love one another

Love one another, love one another

Come again come love one another, I say love one anotherRemember love one another, love one another,

love one another

Because love could make you happy

Coulda never make you sad

Trying to make it snappy

And get that love that you must have

Because L and a 0 and a V and a E

That could make the world f-r-e-e

L and a 0 and a V and a E

That good for you and that good for

Man and woman in a relationship

You don't have love it cannot exist

So I insist that you refuse to resist

That wonderful thing that your heart must cherish

Because from my experience the greatest ingredients

Is love and obedience connected with reverence

I always admire a loving desire

That's what we require so kindle the fireChorusAll the people living inna this world today

Shoulda never ever let love get away

'Cause L-0-V-E can make you okay

Every second every minute every hour of the day

So if Europe and America Caribbean and Asia

And Japan and China and Mama Africa

Could just come together this wood would be better

'Cause love is the power spread it all over

Chorus

One of the greatest four letter word

My eyes have ever behold and my ears ever heard

'Cause like and lust and crush come third

You take me up on that you have a nerve

Because I'm optimistic and enthusiastic

And very prophetic about this topic
I have to spread it make it get endemic
Till an epidemic in all family unitsChorusProduced by Donovan GermaineEngineered by Andre "Deady Ranks"
