

Fly On the Wall

Gordie Sampson

It's not fair, gotta stay, wanna go
I just sit there in my chair by the window
Watching the lights as the cars go by
Scratching my head, wishing that I Was a fly on the wall, creep and crawl to you
Listen to you breathe while you sleep
Just a spot in your heart, give it all
Every breath for a chance to be a fly on the wall
Wherever you are When I get by like an unhappy camper
Think high like 'em to smile for the camera
Pass me a torch, pour me a round
Drinking a drop to buzzing around Like a fly on the wall, I'd creep and crawl to you
Listen to you breathe while you sleep
Just a spot in your heart, give it all
Every breath for a chance to be a fly on the wall
Wherever you are If I was to beg, dime to dollar
This book in your bed, warm glass of water
The alarm clocks set for six in the morning
But you can't sleep, yeah, you stare out your window
Watching the lights as the cars go by
Just scratching my head and wishing that I was a fly on the wall, I'd creep and crawl to you
Listen to you breathe while you sleep
Just a spot in your heart, give it all
Every breath for a chance to be a fly on the wall
Wherever you are, wherever you are
Watching the lights as the cars go by
Scratching my head, wishing that I
Watching the lights as the cars go by
Scratching my head, wishing that I
Watching the lights as the cars go by
Scratching my head, wishing that I
Watching the lights as the cars go by
Scratching my head, wishing that I
Watching the lights as the cars go by
Scratching my head, wishing that I
Watching the lights as the cars go by
