

The Spark

Afrojack

(Intro)

A little bit of misfit dancing

A little bit of jojo dancing

A little bit of thoughts of mine coming out the mind of this midnight rambler(Verse)

I can't wait til these tunes of mine get me out of this local jam

Get up up on that big stage now

Show the world just who the heck I am(Verse)

Ever think if it all goes right

You got something that could change your life

Use that moment just to show your life

Everything is gonna be alright€.(Chorus - part 1)

Crashing through the stars, alright

I'm screaming til the stars collide

I'm tellin everybody, that's right

We all got the spark, we all got the spark tonight(Chorus - part 2)

Takin back the way we are

'Cause that's just the way we are

I'm crashing through the dark, we're alright

We all got the spark, we all got the spark tonight(Verse)

They say if you look around for something hard enough and you just might find it

And there's some around who wanna keep you down but Shawty don't be blinded

Feeling trapped, thinking that you can't get out of this humdrum scene

Time to turn this thing upside down

Show these people what you really mean(Verse)

Everything that you could lose your mind

Could it be the big dream you'll find

No more waiting cuz it's almost time

Everything is gonna be alright€.(Chorus - part 1)

Crashing through the stars, alright

I'm screaming til the stars collide

I'm tellin everybody, that's right

We all got the spark, we all got the spark tonight(Chorus - part 2)

Takin back the way we are

'Cause that's just the way we are

I'm crashing through the dark, we're alright

We all got the spark, we all got the spark tonight(Bridge)

Hope I feel this forever

Or even if it's just tonight

I can see the end much clearer

Even when I close my eyes
Tryna keep myself from falling
Tryna get this thing right
I gotta do this more often
Well, well maybe tonight(Chorus - part 1)
Crashing through the stars, alright
I'm screaming til the stars collide
I'm tellin everybody, that's right
We all got the spark, we all got the spark tonight(Chorus - part 2)
Takin back the way we are
'Cause that's just the way we are
I'm crashing through the dark, we're alright
We all got the spark, we all got the spark tonight
