

I've Got Friends

Manchester Orchestra

Dirty in the ground is what I need
I got another one to tell you
and another one to make you believe
pity in the grass tried to be
the one you needed when I told you
that you wanted something bigger than me
I've got friends in all the right places
I know what they want
and I know they don't want me to stay
I said that I've got friends in all the right places
I know what they want
and I know they don't want me to stay
'cause you are not alive
when I need you
I need it quickly
in case you never know
I can't play where I'm not supposed to anyway
dirt in the ground is what I see
I need another reason why

I need another reason, tell me to breathe
the dirtier the sound, the best I breathe
I tried to do it all for you
it didn't do anything for me
'cause I've got friends in all the right places
I know what they want
and I know they don't want me to stay
I've got friends in all the right places
I know what they want
and I know they don't want me to stay
and you and I will find
that when I need you
I need it quickly
in fact, you'll never know
I've got friends in all the right places
I know what they want
and I know they don't want me to stay
I said that I've got friends in all the right places
I know what they want

and I know they don't want me to stay.
