

# Robot

## 3OH!3

It's easy to say no hard feelings when you're talking to a robot,  
But get's a little tougher when she starts to take her mask off,  
Stupid motherfucker should of never took my clothes off,  
3, 2, 1... BLASTOFF!Yeah, she's an android, got it on a Polaroid,  
White lights in her eyes, got me all paranoid,  
Straight outta the moive with some blade-runner shit,  
Tounge to the battery speaking 8bit.  
Yeah, like Atari but sorry no buttons,  
The only game she plays is 'lie about something'  
That's a clue to back off, before she takes her mask off.  
3, 2, 1...It's easy to say no hard feelings when you're talking to a robot,  
But get's a little tougher when she starts to take her mask off,  
Stupid motherfucker should of never took my clothes off,  
3, 2, 1... BLASTOFF!I don't wanna date another robot like,  
All I ever hear is how she buzz all night, about  
You don't wanna see another robot right?  
And 'if you never learn to treat a robot right'  
All I hear is bleep-bloop, R2D2,  
When you pull her mask off, her face is see through,  
Control Alt Delete you, until you wipe the past off  
3, 2, 1... Blastoff!It's easy to say no hard feelings when you're talking to a robot,  
But get's a little tougher when she starts to take her mask off,  
Stupid motherfucker should of never took my clothes off,  
3, 2, 1... BLASTOFF!It's easy to say no hard feelings when you're talking to a robot,  
But get's a little tougher when she starts to take her mask off,  
Stupid motherfucker should of never took my clothes off,  
3, 2, 1... BLASTOFF!Everybody in the place do the robot,  
I can see it in your face, do the robot,  
If you've got metal parts put your hands up.  
Yeah, Everybody in the place do the robot,  
I can see it in your face do the robot  
If you're born without a heart, put your hands up/  
It's easy to say no hard feelings when you're talking to a robot,  
But get's a little tougher when she starts to take her mask off,  
Stupid motherfucker should of never took my clothes off,  
3, 2, 1... BLASTOFF!It's easy to say no hard feelings when you're talking to a robot,  
But get's a little tougher when she starts to take her mask off,  
Stupid motherfucker should of never took my clothes off,  
3, 2, 1... BLASTOFF!All I ever wanted was for you to say you loved me,

But somehow that emotion got jumbled up in your circuitry,  
Just left me lying in your bed, a question on my tongue,  
Should of known that you were cold, I should of know that you were numb,  
I should of run, I should of run,  
All the things I should of done,  
Should of seen my future coming,  
Save my soul from getting spun  
Should of never let your dark eyes tie me into knots,  
But I guess that's just what happens when you try to date a robot. All I ever wanted was for you to say you loved  
me,  
But somehow that emotion got jumbled up in your circuitry,  
Just left me lying in your bed, a question on my tongue,  
Should of known that you were cold, I should of know that you were numb,  
I should of run, I should of run,  
All the things I should of done,  
Should of seen my future coming,  
Save my soul from getting spun,  
Should of never let your dark eyes tie me into knots,  
But I guess that's just what happens when you try to date a robot. But I guess that's what happens when you try  
to date a robot.
