

Take My Breath Away (Feat. Teyana Taylor)

Brianna Perry

Verse 1:

You were, someone I took interest
How did, you get up on the guest list?
Soon as, you moved through the entrance
Bond 9 fragrance and your YSL footprints,
I studied, you and your guy friends,
Dj vu like I had met you up in past tense
Kinda makes me wonder what your name is, people taking pics so I know you kind of famous, smile thatll drive
a girl saneless, and his swag super clean, stainless,
Im tryna get to you, nesquick, milk chocolate skin, smooth,
A good investment, looks like lonely who you came with, but I know who you can leave with
seem like you got that fie, got you conceited
Well you got me charged up, boy I need itHook:
Oh my what have I done? (oh god)
No bullets left in the gun
Girl down, Im on the run (woah)

I took her breathe away I took her breathe awayVerse 2:

Days pass, couple times we pass by,
Way Im looking blind men saying hi,
Way Im looking boyfriends saying bye,
Way Im looking fat boys running miles
You never notice though,
After all my mani and my pedi, hair appointments and the cardio,
Reading 17 mag, carrying a new bag, even put your last name in my hashtag,
I took a picture of myself I took a picture of ya, I put them two together, looking at the cutest couple, when I be
looking at you thinking I be seeing double, dont want nobody else peaking put you in a bubble, day dreaming
about the day you ask my name baby, then the thunderstorm came purple rain baby, my prince, sealed his lips,
in a discrete kiss, with a unknown miss, it was her, she was the reason I was missed aint it, it was her, she was
the reason, I was dissed aint it, he was blind to my beauty and my booty cause he had a little cutie, must have
been up on her duty, blacked out, when I came to, everybody looking at me, looking at me, him too, tears in his
eyes, gun in my palm, no life in her body, oh my what have I done.took her breathe awayHook:
Oh my what have I done? (oh god)
No bullets left in the gun
Girl down, Im on the run (woah)
I took her breathe away I took her breathe away
