

Leave the Biker

Fountains of Wayne

Seems the further from town I go
The more I hate this place
He's got leather and big tattoos
Scars all over his face And I wonder if he ever has cried
'Cause he couldn't get a date for the prom He's got his arms around every man's dream
And crumbs in his beard from the seafood special
Oh, can't you see my world is falling apart? Baby, please leave the biker
Leave the biker, break his heart
Baby, please leave the biker
Leave the biker, break his heart Now his friend leans over and says
Looks like we got us a fag
I wonder if that guy's read one word
That wasn't in a porno mag And I wonder if he ever has cried
'Cause his kitten got run over and died He's got his arms around every man's dream
And crumbs in his beard from the seafood special
Oh, can't you see my world is falling apart? Baby, please leave the biker
Leave the biker, break his heart
Baby, please leave the biker
Leave the biker, break his heart And I wonder if he ever has cried
'Cause he couldn't get a date for the prom He's got his arms around every man's dream
An' crumbs in his beard from the seafood special
Oh, can't you see my world is falling apart? Baby, please leave the biker
Leave the biker, break his heart
Baby, please leave the biker
Leave the biker, break his heart
Baby, please leave the biker
Leave the biker, break his heart
