

Try

Jenni Reid

Though I know you've gone far away from me
And all our dreams have faded out and though your love has gone
With the wind that blew through I will see this love through

And I will try try to keep you in my sights
I will try try to hold you close
I will try try to sound all the alarms
And I will try try to keep you in my arms
And I will try yeah I will try oh

When that wind goes blowing through
When my heart breaks I will know what to do
I will try to be in love without you
I will try and try try and try

Yes I will try try to keep you in my sights
I will try try to hold you close
I will try try to sound all the alarms
And I will try try to keep you in my arms
And I will try yeah I will try oh

When you have given up faith
And I have lost all my hope
When our love seems like a ghost
That haunts us to close
I will try and try try and try
Yes I will try and try

Yes I will try try to keep you in my sights
I will try try to hold you close
I will try try to sound all the alarms
And I will try try to keep you in my arms
And I will try yeah I will try oh
